

Semi-auto Chemistry Analyzer

Features:

- ①. 7.0 inch LCD touch screen, graphical interface is easy to use.
- ②. Large memory space, can store 144 test items, 5600 test results.
- ③. Built-in thermal printer to print measurement results and flag abnormal results.

Parameters:

Model	
Sample Type	Serum, Plasma, Urine, Cerebrospinal fluid, etc.
Analytical Method	End point method, Fixed time method (two-point method), Dynamic method (rate method)
Cuvette	Flow through a direct-reading cuvette
Wavelength	Wavelength340/405/450/505/546/570/630nm, 2 more open filter positions
Wavelength Accuracy	±2nm
Screen	7.0 inch LCD touch screen
Language	English, French, Spanish, other languages can be customized
Printer	Built-in thermal printer
Interface	RS-232, USB
Consumption	100VA
Power Supply	AC110/220V±10%, 60/50Hz
External Size(W*D*H)	400*410*190mm
Packing Size(W*D*H)	520*490*330mm
Net Weight	8kg
Gross Weight	11kg
