Full-digital Ultrasound

Full-digital Ultrasound
Diagnostic System expert

Multifunctional

Language

Built in 8 languages, such as Chinese, English, French, Spanish, etc.

Department

Built in 8 languages, such as Chinese, English, French, Spanish, etc.

Race

Formula for measuring different race. Select standard obstetric algorithms based on local ethnicity.

Report page

One click report generation page. Automatically import diagnostic images and measurement data.

Convenient and vivid

ARM chip architecture, with more stable and powerful functions.

32 channel signal processing for richer and clearer images.

15 inch 1024 * 768 resolution high-definition LCD screen.

Dual probe activation socket, VGA interface, USB2.0 interface, VIDEO interface.

Built in large capacity lithium battery with a range of 2.5 to 5 hours.

4. Applications

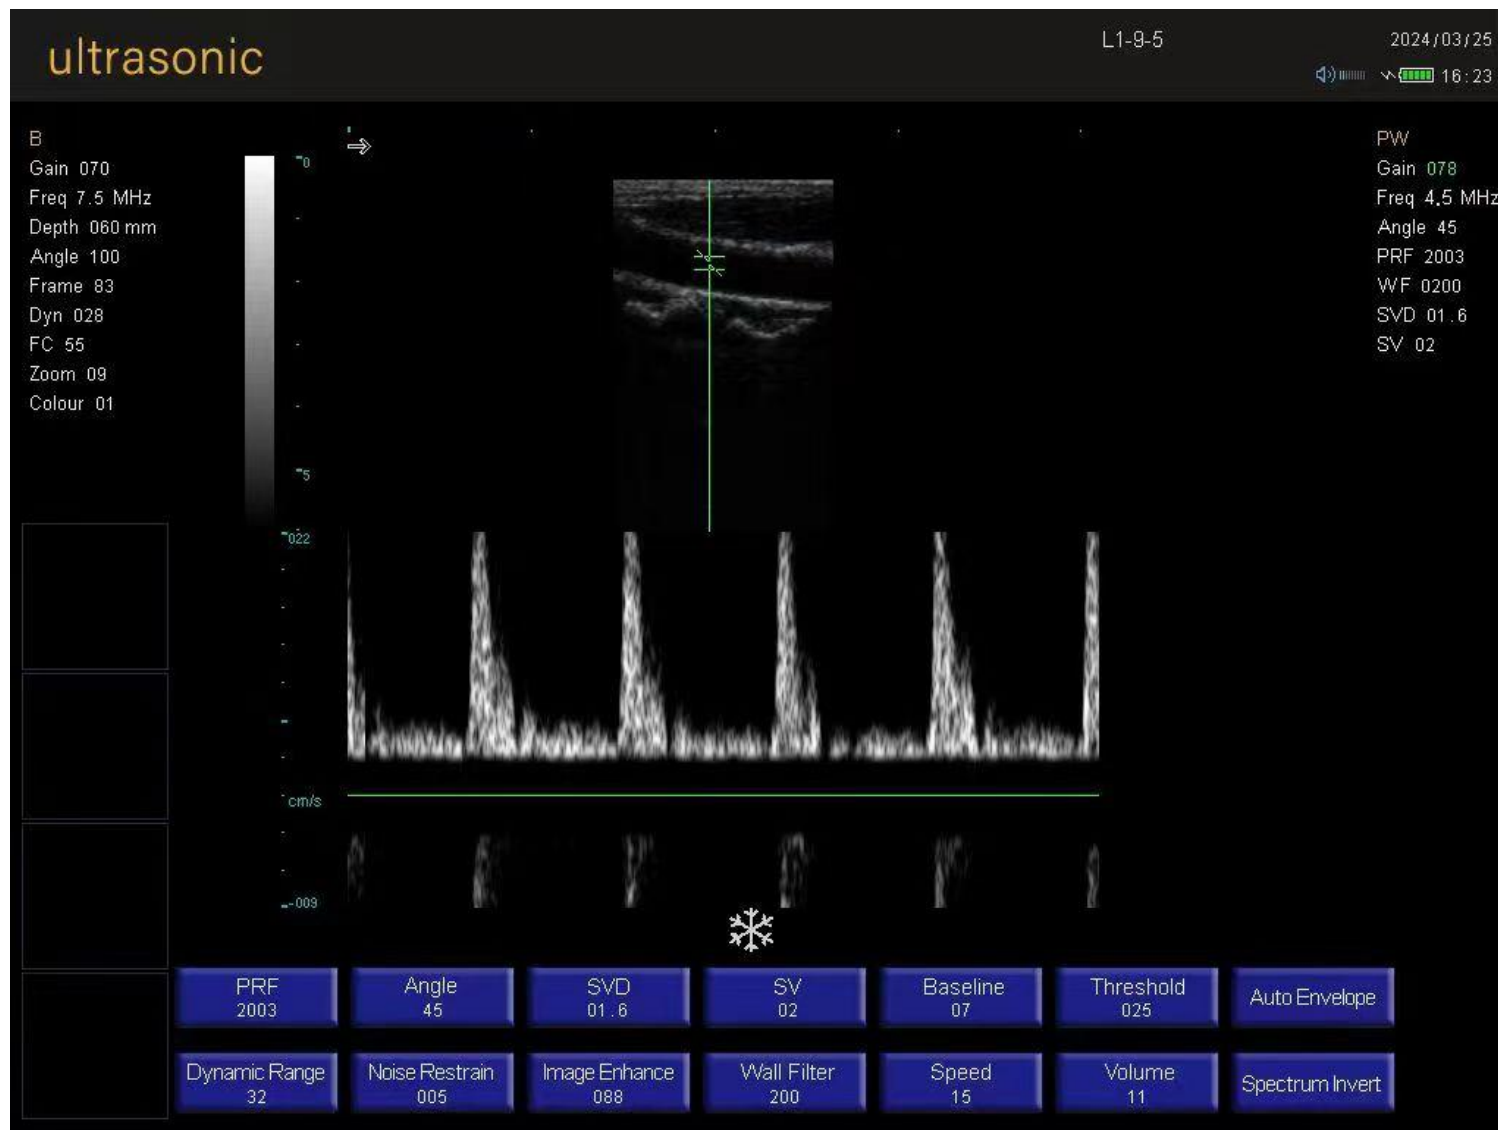

Formula for measuring different races

Ulna	EFW	GS	< Obstetrics
Radius	Last menstruation	BPD	Distance
Tibia	Amniotic Fluid	HC	Circle - Ellipse
Fibula	Amniotic Fluid Index	AC	Circle - Trajectory
Clavicle	Placenta	FL	Area - Ellipse
Vertebra	Th C	CRL	Area - Trajectory
Middle phalanx	Umbilical vein	Yolk Sac	Volume
Foot length	FK	TTD	Angle
Ear length	Umbilical Cord	AFTD	Distance Ratio
Trunk	Cervix length	CTD	Area Ratio
Chest diameter	Neck fold	NT	
Fetal Heart circum	Fetal orbit	OFD	
Fetal heart rate	OOD	Cist mag	
	IOD	LVW	
	Humerus	Falx Cerebri
